

Flight Delays

A breakdown of the timing of flight delays of 2008 domestic flights

2018 Flight Breakdown

- In 2018 there were 1,936,758 domestic flights tracked for delays
- 1,247,488 (64%) of these flights were delayed between 15 minutes and 33 hours, with most flights being delayed less than an hour
- The majority of flights are booked for the holidays in December

Flight Delays By Time of Day

- The time of day a flight is scheduled for plays a role in when the destination will be reached.
- The best time to fly and ensure you will not experience long delays is at night (after 9pm)
 - There are no night flights delayed longer than 2 hours, while some earlier flights are delayed significantly longer
- While there are significantly more flights earlier in the day, the total delay time is not impacted until after 9pm
